Vivek Demo

vivek.demo@example.com | Android developer | Fictional candidate

PROFILE

Entry-level Android developer with practical Java, mobile UI and local storage experience.

SKILLS

Java, OOP, collections, exception handling, Android SDK, Android Studio, Gradle, XML layouts, Room/SQLite, Firebase, Git and mobile debugging.

EXPERIENCE

Android Development Intern, Example Mobile Lab (fictional) | January-June 2026

Built Android activities and forms in Java with XML layouts. Added validation for mobile UI inputs, corrected null-handling crashes and managed state across screen rotations.

Integrated an existing third-party REST API using Retrofit and stored recent results locally using Room and SQLite. Used Git for code reviews and Gradle for builds.

PROJECTS

Habit Tracker Android App: Personally implemented Java models, activity logic, local SQLite storage and notification scheduling.

Weather Client: Built Android screens that consume an existing weather API and display cached results when offline. Debugged network timeouts and parsing errors in the client.

EDUCATION

B.E. Computer Science, Example Institute | 2026. Coursework: Java, OOP, mobile computing and databases.
